

The Homestead Series

Product Features

The "Homestead" series doors are available in 2" insulated panels. Insulated doors will have corrosion and rust resistant 26 gauge hot dipped galvanized steel both sides. Custom vinyl moldings are bonded to the embossed face to give the look of wood carriage door. No matter how extreme the weather, your "custom" door will not split, crack, or warp like wood. Sections are manufactured with tongue and groove meeting rails for strength and exceptional sealing against the weather. Premium hardware such as 13 gauge track, steel ball-bearing rollers and heavy gauge hinges are used for continuous performance.

Door Panel Style Guide

*All Single Car Styles shown are also available in a Double Car Style.
